

Seamless Windows 11 migration

with Win11 Rapid Roadmap

Pomeroy provides the following services to support your Windows 11 Migration:

Hardware and software compatibility assessment

Stakeholder interviews and alignment workshops

Identification of blockers and risks

Development of phased rollout

Executive briefing and roadmap presentation

Are you ready for Windows 11?

Our Win11 Rapid Roadmap service is designed to quickly assess your readiness for Windows 11, align stakeholders, and develop a phased migration strategy. This service accelerates planning, reduces risk, and ensures a smooth transition to Microsoft's modern desktop platform.

Many organizations have delayed migrating or faced challenges when moving to Windows 11. Key concerns include hardware and application compatibility, stakeholder agreement on timing and scope, potential disruptions to end-user productivity, and limited internal resources for planning and implementation. Addressing these issues proactively can help ensure a smoother transition.

To tackle these challenges, the Win11 Rapid Roadmap service offers numerous benefits for organizations planning or undergoing a Windows 11 migration, including:

- Clear understanding of Windows 11 readiness across devices and apps
- Accelerated planning and stakeholder agreement
- Reduced risk and less disruption during migration
- Improved user experience and productivity after deployment

Ready to take the next step? Schedule your **complimentary 30-minute roadmap meeting** today and receive a comprehensive meeting recap, high-level recommendations, and a tailored Statement of Work. **Don't wait!** Ensure a smooth and efficient transition to Windows 11 by taking action now.
